A final year Information Systems student with a focus on front-end web development and UI/UX design. I have experience in designing and implementing websites using Figma, HTML, CSS, Javascript, and Bootstrap 5 for front-end design, and PHP for back-end development. Proficient in using Microsoft Office for creating effective reports and presentations, I have obtained BNSP certification as a Computer Operator Madya. Additionally, I am skilled in SQL programming for database management. With a passion for learning new things, I possess good communication skills and the ability to manage projects and collaborate within teams.
